

**Mutirão at the City Level - How Climate Action Weeks & Town Hall COPs are Accelerating Local Climate Action**

**Inspired by the pioneering London Climate Action Week, several cities across the world have now developed their own Climate Action Weeks, in partnership with London.**

“As someone who has been involved in city-level climate action since Local Agenda 21 in the 1990s, I’m delighted that we are now **uniting with the Town Hall COPs to integrate them in the growing family of Climate Action Weeks.** We are proud of today’s joint event with ICLEI and look forward to building on this as a practical demonstration of Mutirao in action.”

**Curator and Ambassador for  
London Climate Action Week**

**The COP30 call for Global Mutirão (People + Collaboration = Impact) is only possible when all tiers of government, local communities, and the private sector, take hands and form a compact of action. And this is exactly what Town Hall COPs and the Climate Action Weeks do.**
